

BCA (Semester-I) Examination, 2021

(Session : 2020-23)

COMPUTER APPLICATION

[Paper : BCA-104]

(C-Programming)

Time : Three Hours

[Maximum Marks : 80]

Note: Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. What is "C" programming? Explain its Features and Applications in detail.
2. What is Operator in "C"? Discuss various types of Operators used in "C" programming in detail.
3. Distinguish between "For Loop" and "While Loop". Give suitable examples of them.
4. What is Loop? Explain its types with suitable examples.
5. Write a "C" program to check a given number is "EVEN" or "ODD".
6. What do you mean by Function in "C" programming? Differentiate between "Call by value" and "Call by Reference" with suitable example.
7. What is Data Type? Classify it and give its suitable examples.
8. What is Recursive Function? Write a "C" program to print fractional value of a given integer using Recursion.
9. What are the elements of "C" programming? Give and explain real life example using Flow chart.
10. Write short notes on any two of the following:
 - (a) Applications of "C"
 - (b) Library Functions in "C"
 - (c) Flow Charts
 - (d) File Handling
