

2024

(Session : 2023-26)

(Paper ID : 12008)

Time : 3 hours

Full Marks : 80

Candidates are required to give their answers in their own words as far as practicable.

The questions are of equal value.

Answer any five questions.

1. What is Function? Discuss the type of function. Explain Call by Value and Call by Reference methods. Write a C program to print Factorial value of a given Integer using function.
2. What is Array? Discuss double dimension array with syntax. Write a C program to enter $M \times N$ element in an array, print the number in $M \times N$ matrix format. Where M represents Rows and N columns.
3. What is Data Structure? Discuss the types of Data structure using net diagram.
4. What is Stack? Write down the algorithm for push and pop operation using Array implementation.
5. What is Tree? Explain the different Tree terminology used in Tree. Also discuss the different Tree traversal method used in Binary Tree.
6. What is Circular Link List? Write a C program to create, add, delete, display and count the element of Circular Link List.
7. What is Sorting? Discuss the type of sorting. Explain Bubble sorting. Write a C program to Enter N number in an array, print the number in sorted order using Bubble sorting.
8. What is Searching? Discuss the type of searching. Write a C program to Enter N number in an array search the specific number in the given list of array using sequential search.
9. What is Binary Tree? Discuss the different Tree Traversal Method with suitable example.
10. Write short notes on any two of the following:
 - (a) Graph
 - (b) Doubly Linked List

- (c) Pointer
- (d) Non Linear Data Structure
